

# Workout challenge event in Linlithgow to raise money for charity

On the 26th of June 2021, GrizzFit, Linlithgow's Newest State of the Art Gym, are holding an event which will see the team take on the physical challenge of completing 24 WODS (Workout of the Day) in 24 hours to raise funds for charities The Anthony Nolan Trust and Rock2recovery.

Fundraisers Barry McGeachie, Tom Griscti, Jen Matthews said: "The aim of the event is to raise awareness for our chosen charities as well as much needed funding to support the work they do. Money raised for charities has been greatly affected as a result of Covid and as restrictions ease we want to use this opportunity to help as much as possible.

"The charities we have chosen are both close to our hearts for various reasons after experiencing the help they provide for family members and friends first hand. Both of these charities have great meaning for the team and go a long way to helping many lives in different ways."
