

Best Casinos in Scotland

If you fancy a flutter, there are plenty of casinos in Scotland to enjoy. You'll find slots, blackjack, roulette, poker, and many other types of real money games at these venues. To help you find where to play, we've listed the best Scotland casinos that are available at the moment. Both within major cities and online. Just remember that you must be 18 or older to play.

Grosvenor – Edinburgh, Glasgow, Aberdeen, Dundee

One of the two major land-based casino brands in Scotland, Grosvenor provides their stylish venues within many major Scottish cities:

- Edinburgh
- Glasgow (two venues)
- Aberdeen
- Dundee

Grosvenor is known to provide the most popular types of games, and often has many additional facilities such as a restaurant, bar, parking spaces, and more. The venues are usually some of the biggest in the country so you can move around and play at different tables relatively easily. You can locate your nearest Grosvenor casino using their [Casino Finder](#) tool.

Genting – Edinburgh, Glasgow

The second major land-based casino is Genting. You'll be able to play at Genting casinos in the two main Scottish cities:

- Edinburgh (two venues)
- Glasgow

In truth, they offer a very similar experience as Grosvenor. Expect spacious buildings with plenty of different tables, slot machines, and other games. All venues are located in the city centres of Edinburgh and Glasgow so you should have no problem getting there. For the exact location, you can use Genting's [Find a Casino](#) tool.

Online – All of Scotland

Nowadays, you can enjoy casino entertainment online. Residents of Scotland are allowed to join UK online casinos that have a licence from the [UK Gambling Commission](#). You just need an internet-enabled device such as a laptop or a mobile phone to sign up.

One major difference between online and land-based casinos is that there's a lot more choice online. For example, you can view this [UK online casinos list](#) to find a wide range of licenced UK sites with different features. You can then choose a casino that meets your requirements.

In general, online casinos offer features that you won't find in land-based counterparts. For example, many of them have thousands of slots and games to choose from compared with venues that can usually only house a few hundred. Bonuses are also very common with players receiving a lot of extra money to play with, which is rare at land-based casinos.

The Alea – Glasgow

One land-based casino that's trying to disrupt the dominance of Grosvenor and Genting is [The Alea Casino](#) in Glasgow. The Alea is regarded as the biggest casino in Scotland with many slot machines, table games, and poker rooms spread over two floors. It's located very centrally next to the River Clyde and is owned by the Metropolitan Gaming Group which operates many other venues across the UK.

Alongside gambling, they have a restaurant, sports bar, cocktail bar, and live shows to try and bring as much entertainment to Glasgow as possible.

Buzz Bingo – Edinburgh, Glasgow, Aberdeen, Motherwell, Falkirk, Irvine

[Buzz Bingo](#) is primarily focused on providing bingo entertainment, making it different from the larger, more expansive casino chains in Scotland. While you won't find the wide array of table games that places like Grosvenor or Genting offer, Buzz Bingo still offers a bit of casino fun in the form of slot machines. It's perfect for those who enjoy a more laid-back, community-driven gaming experience, where bingo takes centre stage.

One of the main advantages of Buzz Bingo is its accessibility. With clubs located in smaller towns such as Motherwell, Falkirk, and Irvine, you don't always need to travel to a major city to enjoy the action. This makes it a more convenient option for those who live outside of Scotland's central hubs but still want some gambling entertainment.

Mecca Bingo – Glasgow, Aberdeen, Dundee, Paisley, Hamilton

Also heavily focused on bingo is [Mecca Bingo](#), offering a fun and social atmosphere for enthusiasts. You won't find the full range of casino games that larger venues provide but there are slot machines available on-site for some added casino excitement.

Similarly, Mecca Bingo is present in more locations beyond Scotland's major city centres. With venues in places like Paisley and Hamilton, Mecca Bingo provides accessible entertainment without requiring a trip further afield. This wider coverage makes it easier for people across Scotland to enjoy a game of bingo or a spin on the slots.
