

# How can I access HBO Max via VPN from the UK?

HBO Max is one of the most popular video-on-demand streaming services on the planet. The streaming service belongs to WarnerMedia Direct, which is a subsidiary of AT&T's WarnerMedia.

HBO Max was launched initially in the United States on May 27, 2020. It expanded its territory to Latin America, the Caribbean on June 29, 2021, and in Andorra, Spain, and the Nordic countries on October 26, 2021.

As of September 2021, HBO Max currently has 70 million subscribers worldwide. Additionally, HBO Max houses the various forms of content from all the corners of Warner Bros. We are talking about content from different franchises such as DC Comics, DCEU, Harry Potter, Lord of the Rings, and many more.

HBO Max's content library offers original shows, TV series, movies from different studios, and content creators. In addition, it has an Anime section that offers various anime shows from Crunchyroll and Studio Ghibli, along with a separate section that is solely for international films.

But like many other streaming services, HBO Max's content is currently accessible to selected countries only. Meaning, users that are located in the United Kingdom won't be able to access HBO Max.

So you must be asking yourself right now: [how to watch HBO Max in the UK?](#). Well, all you need is a virtual private network, and HBO Max will be in the palm of your hands.

Don't worry. We will explain to you the whole process along with a few other important things so that you can watch HBO

Max in the United Kingdom.

## Watch HBO Max in the United Kingdom [Quick Steps]
