

Ray-Ban's sunglasses are popular for a reason

When a business has been flourishing and thriving for a long time, they've certainly made some excellent products over the years. Ray-Ban has been producing practical and stylish sunglasses since 1937. It is still a brand that provides some of the top sunglasses available. In this article, we explain the reasons we love these glasses and address frequently asked questions regarding the brand.

What type of UV protection does Ray-Ban sunglasses offer?

Although sunglasses are now an accessory that is fashionable by themselves, at the root of them, they're designed to safeguard your eyes. Each pair of Ray-Bans is a winner in this regard. All Ray-Ban lenses come with UV protection, however, the amount of protection is different depending on the lenses. Here's what Ray-Ban provides:

- Classic lenses block 85% of visible light. They block out most blue light, offering "natural vision" because they do not alter the colours you can see around you.
- Mirrored lenses cut down on glare and allow the eyes to be more comfortable near water and snow. The colours appear more clear and brighter.
- Polarised lenses block up to 99% of the light reflected around you, reduce the glare, and increase the contrast. It's clearer and brighter.

Does Ray-Ban offer prescription lenses?

Another amazing feature of Ray-Ban is the possibility to obtain prescription lenses. Pick from a variety of frames from the classic Ray-Ban options and personalise them by putting your prescription lenses. They can also be prescription sunglasses.

Of course, great lenses must be paired with equally beautiful frames. Luckily, Ray-Ban has those too. They offer high-quality acetate and metal frames in different sizes for the ideal fitting. The large majority Ray-Ban customers opt for the standard size. However, should you be unsure, take a look at the size guide of the brand.

The top-quality frames, durable lenses, and the perfect design make Ray-Bans equal parts style and performance. They're as

appropriate for a lazy night out on the town as they are for a full-on time at the lake or in the snow or wherever else you want to go.

What kind of glasses does Ray-Ban create?

From classic to modern, Ray-Ban has a strong range of stylish and fashionable choices for every situation. It's likely that you recognise three of Ray-Ban's most iconic models: The Aviator, The Wayfarer, and The Clubmaster. Although fashions in eyewear change, these three pairs are timeless. Insider Review's social media associate Victoria Gracie swears by her Ray-Ban Clubmasters. "In the past," she explained, "I've had trouble finding sunglasses that fit me perfectly, but Ray-Ban's Clubmasters work well. They're also of top quality. The fact is that I'm not as cautious as I ought to be when it comes to my Ray-Bans but they're still in great condition. The lenses don't have any marks. "

In fact, these two models, Aviators as well as the Clubmasters, have been included in our lists of the top women's sunglasses, the best sunglasses for men and the best-polarized sunglasses – they're just that great. You can also find them on [SmartBuyGlasses UK](#) online stores.
