Fringe recommendation — Stevensongs

The French duo [FERGESSEN](#) (indie electro-pop) performs their new show at the [French Institute in Scotland](#).

[STEVENSONGS](#) is a musical creation based on Robert Louis Stevenson's most beautiful letters and poems, selected from collections such as : *A Child's Garden of Verses*, *Songs of Travel*, *Ballads*, *Underwoods* as well as Michel Lebris's French edition of *The Letters of Robert Louis Stevenson to his family and friends*.

Set up as an "echo chamber" in which Stevenson's words are used both in English and in French, the show is directed by [Nora Granovsky](#) (*Janis ;Love, Love, Love,*) in a scenography by [Pierre Nouvel](#), which stages the modern encounter between theater and live synthetic music.

This week, FERGESSEN perform their last 4 shows at 6 PM, EVERYDAY, at the [INSTITUT FRANÇAIS D'ECOSSE —](#) VENUE 168 — West Parliament Square.
