

Get your home ready for Christmas

Christmas is approaching fast and it's high time to make gradual preparations for it. What should you arrange at home? We can help you with everything from the front door to the Christmas tree.

How to decorate your garden?

If you have a family home with a garden, you can also use it as part of the Christmas preparations. You probably won't decorate your home's exterior so spectacularly like they do in American movies. You can use Christmas lights to decorate a bush or two, maybe a few windows or a summerhouse for example.

Christmas usually begins at the front door

In the case of flats and many family houses, the main entrance door is the first part that's decorated. [Christmas wreaths](#) are usually hanging on them

You can either buy them on the Internet or in traditional stores, another option is to make your own Christmas wreath. For this, you'll need a circular base for the wreath – we definitely recommend that you buy it in the store. They are affordable and will save you a lot of time. Then you need material for decoration, you'll find in the forest. Pine cones, coniferous twigs are useful. You can buy some items. You'll need a binding wire to tie the wreath and a hot glue gun will also come in handy.

An Advent candlestick is a must in your interior

We'll leave the extent to which you decorate individual rooms to you. For some, a few discreet elements are enough, while other people change their interior beyond recognition during the pre-Christmas period.

What can you match to the Christmas theme today? **Christmas curtains and drapes, winter bedding, themed tablecloths or decorative window films are available on the market.** Furthermore, you can also buy various **Christmas lights, decorative wreaths, Christmas cake** and much more for the interior.

You shouldn't miss the **Advent candlestick**, this is a must, and is one of the typical Christmas symbols. You light a candle on every Advent Sunday. Please note that when lighting candles near flammable objects, **you should have a small household fire extinguisher at hand. Never light candles when you leave home.** All it takes is a minor accident which can lead to catastrophic consequences. Statistically, this unfortunate event happens to several families every year.

Don't leave your shopping to the last minute

In addition to the decorations that are already being prepared for the beginning of Advent, **you'll need a lot of things that you'll use only at the last minute.** We're mainly talking about **Christmas tree decorations, a tree stand or supplies for preparing a Christmas Eve feast.**

You'll have a hard time finding these items at the last minute. Online stores can no longer guarantee timely delivery, Conventional shops could be closed. And those that are open

might have completely sold out on such items.

Therefore, prepare on time even for the peak of Christmas. By having everything sorted out, you'll avoid all the unnecessary stress and really enjoy this magical time of year to the fullest.
