

Edinburgh Science Festival – A Climate of Change

Edinburgh Science Festival presented a talk on Thursday evening between Patricia Espinosa, Ambassador of Mexico to Germany since 2012, former Minister of Foreign Affairs of Mexico (2006–2012) and Executive Secretary of the United Nations Framework Convention on Climate Change (UNFCCC, 2016–2022) and MSP Màiri McAllan, Cabinet Secretary for Net Zero and Just Transition.

Ambassador Espinosa and Ms McAllan enjoyed a fascinating conversation exploring Scottish, and global, efforts to face up to our climate emergency and guide us through the vital transition to a cleaner, fairer and sustainable future for everyone. With discussion of climate justice, the role of legislation, UN Sustainable Development Goals and how we mitigate the unfolding effects of a changing climate and more, this event gave fascinating insights into global politics and what the next steps on this critical journey need to be.
