

Business Week events next month

A week of business related events is arranged in November when Fife Council Economic Development will support the “What Forth Green Freeport Means for Fife” event.

The morning event is recommended for local businesses, key partners and investors keen to understand the potential of the Forth Green Freeport.

The strategically located Forth Green Freeport is billed as an opportunity for Fife and Scotland, to deliver a just transition to net zero, attract inward investment, build international trade and export capability, and to create high quality and well-paid jobs. Forth Green Freeport offers a unique business environment with proposed incentives, simplified customs processes, as well as wider supply chain opportunities and place-based investment.

With the ports of Rosyth and Burntisland located within the Forth Green Freeport location and with the outer boundary taking in much of the local area, the Forth Green Freeport is set to be a significant economic driver for Fife.
