

Macmillan Coffee Morning held in Newhaven

The two local politicians, Ben Macpherson MSP and Deidre Brock MP got together to hold a joint Macmillan coffee morning on Friday.

Macmillan Cancer Support organise annual coffee mornings as their biggest fundraiser to support people living with cancer. Last year the charity raised more than £12 million in the UK. The first coffee morning took place in 1990, a small event with a few people and since then the charity has used their flagship fundraiser to gather £290 million for their work.

The totting up for the joint event held at the Heart of Newhaven is still ongoing [as is the online fundraising where donations can still be made.](#)
