Gifted German artist Michael Pendry to once again transform St Giles' with his newest masterpiece

By **PHYLLIS STEPHEN**

A NEW PUBLIC sculpture created by German artist Michael Pendry, will be sited in St Giles' Cathedral later this month. 'HEART' makes its UK premiere in the capital in a collaboration between the Burns&Beyond Festival and the St Giles' 900th. The anniversary marks the founding of the cathedral, to be celebrated with events throughout 2024. This year HEART will light up the cathedral with the very symbol of life itself, a new three-dimensional work measuring five metres tall, will transform the space with a ticketed evening illumination and soundscape for visitors. The installation will take ten days to build and will be a central part of the Burns&Beyond Festival which takes place in the city from 25 January to 11 February. What better symbol for the festival which takes its inspiration from Robbie Burns and promotes 'Luv, hope and Kindness', than a heart?
