

Half term fun at Dobbies

Dobbies Edinburgh store is holding a free children's event in February.

During half term, on 17 February, children aged between 4 and 10-years-old can take part in a Random Acts of Kindness Workshop when they can learn about the joys of being kind.

Children will learn about caring for the planet by making a bug hotel, feeding birds or planting pollinating flowers to help bees thrive, picking up litter or making compost.

Little Seedlings will also encourage participants to be nice to themselves by eating healthy food, doing things they love and being proud of themselves. One of the activities is to create a sunshine thank you card to put a smile on someone's face.

Dobbies' Little Seedlings Club Workshop Leader, Liz Savage, is looking forward to welcoming kids along to the February Holiday Workshop. She said: "School holidays are a great chance to ignite a passion for a hobby or try something new. This workshop will allow kids to come together and learn, making friends along the way.

"Our Little Seedlings Club is designed to engage and support local communities near our Edinburgh store by providing accessible, free of charge fun and educational activities."
