

Holiday homes available at reduced prices

Holiday Homes from top UK manufacturers available at Camelot Holiday Park with £10,000 price reduction and site fees paid until 2025.

Camelot Holiday Park at Longtown in Cumbria is doing all it can to help people access a holiday home this year, or indeed downsize permanently onto the park which has full residential status.

Holiday home properties at The Paddocks, the latest homes on the park, include fully furnished models from top manufacturers including ABI, Willerby and Carnaby, priced from £39,995, whilst downsizing park home models are from £120,000.

“At the moment, we are taking £10,000 off all prices if you buy before the end of the month, so please come and see us and check out our selection,” said William Stewart from the park. “Everything represents fantastic value as all holiday homes are fully furnished, decorated, and come with useable outside space, including decking and private driveways.”

“We’ll also pay your site fees until next year – this is another saving of over £2,000,” added William.

Today’s industry-leading luxury holiday homes are turnkey properties, equipped with features such as luxury fitted kitchens with integrated appliances, en-suites, dressing areas, cosy snugs and floor to ceiling height windows.

With a secure gated entrance, Camelot Holiday Park is open a full twelve months of the year.
