

# Latest block of flats on sale in Musselburgh

## A new development is being built in the heart of Musselburgh.

Set on the banks of the River Esk, The Wireworks, created by property developer Dundas, has announced the sale of its latest block of flats after selling out on the two previous releases.

The flagship site comes fitted with high spec one, two and three-bedroom apartments with the developer expecting high demand, with the new releases following the launch of the development's show apartment earlier this year – which was fronted by leading Interior Designer Carol Yates.

Heading up the customer service operations at The Wireworks is Product Specialist, June Pernet. She has urged prospective buyers to seize their opportunity to purchase the in-demand flats.

June said: “We’ve always wanted to create a truly exceptional living experience at The Wireworks and the overwhelming demand we’ve witnessed for the previous two blocks is a testament to the superb quality of the homes our team has worked to deliver.

“It’s encouraging to see that homebuyers have responded so positively to the development and we’re delighted with the initial feedback from those who have bought homes, and we can’t wait to see this development turn into a vibrant community in the months to come.

“Initially, we’re seeing a strong response from the market to

our homes, and we expect this next phase to generate a lot of interest among buyers.

“I’d urge anyone who is in the market and is interested to reach out to our team as soon as possible to avoid missing out on a fantastic opportunity to be part of an incredible development.”

The Wireworks currently has seven plots available in block three of the development, starting from £269,995.

Each apartment comes equipped with an ensuite and a balcony, as well as a spacious open-plan kitchen, dining and living room with top-of-the-range specifications.

Hive-controlled heating, contemporary kitchens with SMEG appliances, Porcelanosa bathroom tiling and hyperopic broadband are some of the high-specification features within the properties.

Dundas is also due to release its much hyped penthouses in Spring – believed to be the only homes of its type in East Lothian.

The Wireworks is a £35million redevelopment of the former Brunton Wireworks site in Musselburgh and will bring to market a range of high-spec one to three-bedroom apartments.

Designed by Michael Laird Architects, The Wireworks is inspired by the location’s industrial heritage, while the contemporary homes have been designed to be practical, light-filled, and spacious.

Dundas has a mission to create homes that make people feel great. Headquartered in Livingston and proudly Scottish, it has a track record of building well-designed homes that are higher spec than a vast majority of competitor properties.

The award-winning Scottish property developer’s main aim is to always make the buying process one that’s smooth and stress-

free.
