A Business Breakfast is being held at Penicuik Storehouse on April 24 (8.30 to 10.30) when like-minded, environmentally committed businesses share ideas and build working relationships.

Each event focuses on different topics like energy efficiency, transport or green marketing and they including presentations from industry experts.

Also featured in the series are case study businesses who have saved money and won new customers through improving their environmental performance.

Penicuik Storehouse is a community benefit society serving as cafe and a community space for local people.

Attendees will learn how the organisation is improving the sustainability of their operation and how they engage with
