

How to rent luxury car in Dubai

When tourists come to Dubai on vacation, they often face the need to rent a car. It is explained by the fact that due to the high incomes of the local population, the infrastructure of the metropolis is designed for motorists. Being a pedestrian while in the UAE is just uncomfortable. Vacationers can do without a car if they do not plan to leave the hotel. Public transport does not work perfectly, so in order to enjoy a good rest, you should think in advance about renting a vehicle.

How to choose a model

Car rental in Dubai is a service that provides an opportunity to get the maximum impressions from your stay in the UAE. For

making a trip comfortable, it is worth paying attention to the capacity of the cabin and its equipment. The distances to local attractions are quite long, and tourists who want to visit them will spend a lot of time on the road.

The presence of an air conditioner, navigation system, airbags and a comfortable child safety seat are not a whim, but all those things are considered a necessity on the roads of the UAE. When choosing a car, make sure that it has the characteristics that are important to your family.

Your preferences

For being satisfied with the services of a car rental company, you need to make a choice based on personal preferences. Absolutely every person arriving in Dubai will be able to choose the most suitable option for himself and his family. If you really like a particular model and it fits the selection requirements, rent this vehicle for a vacation. Then driving the car will bring positive emotions.

Price

In Dubai, the price for a rented car starts at about \$ 20 for 1 day of rental. It depends on the class of the vehicle. Subcompacts can be rented for \$20-25, mid-range cars for \$30, convertibles for \$35-40. Renting a convertible will cost about \$ 170 per day, and luxury cars – \$ 200 and above.

The tenant will be asked to make a deposit when drawing up the contract. It can be done using cash, debit or credit card. From several hundred to several thousand dollars will be frozen in the account. The amount of the deposit also depends on the exclusivity of the car brand and the conditions under which the rental company operates. After the vehicle is returned, a part of the deposit will be returned to the

tourist.

What is deducted from the amount paid: car repair costs (if the tenant got into an accident during the trip), fuel payments, fines, and the use of toll roads.

Main criteria

When making a lease, it should be clarified whether there are restrictions on the daily mileage. Sometimes companies rent vehicles with a limit of 200-300 km/day. That will be enough for someone. But, given the long distances that will need to be travelled to visit tourist sites, it is desirable that there are no limits. Also pay attention to the technical condition of the car and the year of manufacture of the model.

Your budget

You need to plan your car rental expenses in advance. If we talk about local rates, then car rental prices start from 85 dirhams, subject to booking for a short period of time. When the rental period is extended to several weeks, its cost is reduced to 75 dirhams. If desired, you can find a car for long-term rental for 65 dirhams per day (about \$ 20).

How to choose a rental company

A trip to Dubai will be a memorable trip for all participants if you can ensure maximum comfort of movement in the UAE. To do this, it is enough to arrange a vehicle rental in [Octane Rent](#).

The advantages of the company are fast rental registration, provision of technically sound foreign cars, and consulting support. Using the services of a reliable car rental service, you will give yourself and your loved ones positive emotions when viewing the sights. Every tourist will be able to plan their travel route, so they will save time on moving between

destinations.

How to choose the car type

In order not to make a mistake in choosing a car, travellers need to determine the exact purpose and personal expectations of the planned excursions. When organising business trips, we recommend paying attention to premium class models. Comfortable and reliable vehicles with modern styling will make a good impression on potential customers and business partners.

If a car is chosen to maintain mobility during a personal trip to the UAE, it is worth considering personal preferences and the level of expected comfort. Tourists who often come to Dubai on vacation prefer luxury models, because they help to feel like a part of this rich country and enjoy its luxury to the maximum. Premium class cars give the driver and passengers the opportunity to feel the excellent quality of Dubai's roads. They fit perfectly into the general surroundings of the country.

Luxury car prices in Dubai

Renting luxury cars in the Emirates today is not considered a luxury available only to very rich people. Going on vacation, every tourist can rent a luxury car and feel the full range of emotions when driving it. The cost of one day of rental of new models of prestigious brands starts from AED 800. A Ferrari with an open top in 2023 will cost AED 3,899, a Lamborghini will cost AED 3,500. With an increase in the rental period, the cost of renting per day will be reduced.

Recommended destinations for drivers in

Dubai

The main attractions of the UAE that are worth visiting are located at a decent distance from Dubai. For example, to get to Abu Dhabi, you need to drive 130 km, to the famous Ferrari World Park, travellers need to cover a distance of 113 km, and to Sharjah – 27 km.
