

Negroni Bar will sustain Fringe audiences this August

Next month Edinburgh distillery [Electric Spirit Co](#) and B Corp speciality coffee roasters [Origin](#) Coffee will open the Electric x Origin Negroni Bar, which will be located at Origin's coffee shop on South College Street.

The Electric x Origin Negroni Bar will be open late from 6pm until 11pm only in August, transforming the coffee shop into a new bar to the city just a few minutes' walk from the heart of the Fringe.

The bar will offer Electric Spirit Co's new Kegrone, bringing quality negronis-on-tap to Origin for one month only. The Kegrone combines Electric Spirit Co's award-winning Achroous gin with aromatic Bitter Fusetti and Valentian Vermouth, making for an exceptional negroni to be enjoyed before after or in between performances.

Beers from local breweries will also be offered, as well as Origin's world-class coffee programme and espresso soft-serve ice cream made in partnership with Oatly available throughout the month of festivities.
