

Fringe 2024 – Solve it Squad by Tin Can Bros are on the case

**JINKLES CHRIST! A group of former
kid detectives return to the scene
of their greatest unsolved case:
the gruesome murder of their
talking dog, Cluebert.**

Can an ambitious narcissist, a lovable doofus, a skittish sad-sap, and a scheming brainiac overcome their traumatic past to save the day one last time?

From the creators of Spies Are Forever and founding members of Team StarKid comes a zany riff on Scooby Doo about friendship, second chances, fame mucking you up in a variety of ways.

The Solve It Squad consulted with original detective Sherlock Holmes at the statue which marks the location of creator Sir Arthur Conan Doyle's birth.

Straight from sell out runs in LA the Solve It Squad hit the streets of Edinburgh and will be playing to audiences at Assembly George Square Studios, Studio Two (Venue 17) until 25 August at 18.40.
