

# Five things you need to know today

## SEPTEMBER

Our Five things you need to know today article will come back after the planned rest during August... slowly. As it can be quite a labour intensive article to produce we plan to write a weekly roundup of news on a Monday for now. This month is a particularly busy one with a lot going on behind the scenes.

We have recently invested in The Edinburgh Reporter website and hope you have noticed the difference. For everyone it should now be quicker to load – and we believe it is easier to navigate. We have turned off some of the Google ads to make these less intrusive. This work continues to improve the user experience.

Of course the reduction in income will have to be boosted in other ways. [Please do support us by buying a scone for the production team here.](#) It helps us keep going and prevents us having to introduce any paywall. EDINBURGH'S NEWSPAPER... A CAPITAL READ FROM START TO FINISH

## Meet Cleo the cheetah

### Spot the new cool cat at the Zoo

By **GEORGE MAIR**

**THE FESTIVALS** are just finished for this year, but it may be timely to remind you of the 2023 Funniest Joke of the Fringe. This was written by Lorna Rose Treen: "I started dating a zookeeper but it turned out he was a cheetah."

Visitors to Edinburgh Zoo can now easily spot a real live cheetah for the first time in nearly a quarter of a century – after the new star attraction was recently introduced to the Edinburgh public.

Cleo, a five-year-old Northeast African cheetah, has arrived at the Royal Zoological Society of Scotland (RZSS) from Fota Wildlife Park near Cork in Ireland.

The majestic big cat – the first of her kind at the zoo since 2000 – spent time getting used to her new surroundings before finally going on show to visitors.

Plans are already being made to add a male later this year, with hopes of the first cubs next year.

Donald Gow, Living Collections Operations Manager at RZSS, said: "We are delighted to finally be able to introduce visitors to our new cheetah, Cleo."

"This spectacular and elegant big cat just arrived in Edinburgh and has spent a good few days just settling into her new surroundings."

"We've had a lot of interest from our members and visitors already."

"We know she will be a very popular addition to our collection of fascinating, beautiful and iconic animals."

**Programme for Government – eradicating child poverty** (Scottish Government debate)

Details will be published in the [Business Bulletin](#).

[Committee business](#) will take place on Tuesday, Wednesday and Thursday, but all business is subject to change at short notice.

You can watch meetings live on [SPTV](#). The transcript of what is said will be available in the [Official Report](#) and the videos will be available in the [SPTV archive](#).

The Scottish Government will lay down its Programme for Government with “plans to deliver a wealthier, fairer and greener Scotland despite difficult financial challenges”.

The First Minister is to outline his first programme since taking office, laying out how the Scottish Government will focus on improving the lives of the people of Scotland.

First Minister John Swinney said: “Against a challenging financial backdrop this year’s Programme for Government will set out clear actions to deliver real change for the people of Scotland.

“The Prime Minister was clear last week that the UK Budget, to be delivered in October, will be painful, and the reality is that the UK’s finances will inevitably affect the funding available to us here in Scotland. Their decisions mean tough decisions ahead for Scotland.

“Yet despite this the Scottish Government will continue to prioritise action to eradicate child poverty, to grasp the opportunities of delivering net zero and to grow the economy by investing in public services and infrastructure. While we will work with the UK Government wherever we can, we will continue to urge them to drop the damaging cuts and set new spending rules that support investment.

“The Scottish Government already has a strong track record of improving lives in challenging circumstances. We have delivered an expansion of funded childcare, record investment in the NHS, renewable energy development, and the introduction of the Scottish Child Payment, which are strong foundations for this year’s Programme for Government.

“Even when faced with unprecedented budgetary constraints, our

aim will be to improve people's lives by focusing on clear priorities that make the biggest difference."

## AT THE CITY CHAMBERS THIS WEEK

There are not many committee meetings open to the public this week, but probably the most important is the [Education Committee](#) on Tuesday. The council's education convener says she is facing making cuts of up to £40 million in the next three years to the education budget amid "the devastation in local government funding". The council sets its budget in February each year, but there will be constant discussion at committees until then.
