

I'm a lottery expert: here's the 5 numbers you shouldn't pick

- According to a study analysing all lottery draws from October 2015 to the present, the numbers 30, 6, 21, 48, 43, and 18 have been the least frequently picked.
- In contrast, the study also reveals that the most commonly picked lottery numbers during the same period are 37, 52, 58, 39, 42, and 27.

A recent [BoyleSports](#) study has uncovered the lottery numbers that have appeared the least frequently in draws. The analysis covers all lottery draws from October 2015 to the present.

Among the findings, the number 30 has appeared only 83 times, with its most recent appearance on Saturday, August 24, 2024.

Similarly, the number 6 has also been drawn 83 times, last seen on September 4, 2024.

Number 21, which has been drawn 84 times, last made an appearance on Wednesday, July 31, 2024, while number 48, also drawn 84 times, was last seen more recently on August 31, 2024.

The numbers 43 and 18 have both been drawn 85 times, making them slightly more frequent, but still relatively rare. Number 43 last appeared on Saturday, August 24, 2024, and number 18 was drawn on August 17, 2024.

Opposing this the team also had a look into the lottery numbers which have appeared most frequently.

Ball 37 has been drawn 115 times, with its latest appearance on September 7th, 2024. Similarly, Ball 52 has also been drawn 115 times, last appearing on August 31st, 2024.

Ball 58 follows closely, having been drawn 112 times, with its most recent appearance on Wednesday, July 31st, 2024. Ball 39 has come up 110 times, last drawn on Saturday, August 24th, 2024.

Ball 42 has been selected 107 times, with its latest appearance occurring on Wednesday, August 21st, 2024. Lastly, Ball 27 has been drawn 105 times, most recently on Saturday, July 27th, 2024.
