

# Focus now on Ayr United says Nicky Cadden

**Nicky Cadden was delighted with the three points from yesterday's game against Aberdeen that moved the club into fifth position and incredibly only two points behind their opponents.**

And now all thoughts are on the Scottish Cup tie against high-flying Ayr United at Somerset Park on Friday.

Hibs scored goals at crucial times, with Nectar Triantis opening the scoring midway inside the first half – before Cadden doubled the advantage just after half-time.

Speaking to Hibs TV after the match, he shared his thoughts on both the result and performance.

“It was two good teams going at it, Aberdeen are a good team and we are on a good run at the moment. Our second goal came at a good time, just after half-time – so we were delighted with that.

“My brother put a great ball into the box – Dwight says he has touched it so I don't think he has got the assist – which Chris is fuming about.

“I just tried to make sure I hit the target and thankfully it went in off the bar. I had to wait for the offside, which is a bit annoying but we were all delighted it got given.”

Nicky Cadden – who was wearing a protective mask after breaking his nose earlier this year – explained how happy he was to be back involved.

“It is strange wearing the mask,” Cadden continued.

“It was sliding down my face a wee bit but needs must at the moment. I want to be playing games and not sitting on the sidelines – so I am happy to wear it.

“We’re a very confident group at the moment. We are building on some good performances at the minute – results are showing that and long may that continue.

“It is a massive result today, it keeps the run going and now all our focus turns to Ayr United on Friday.”
